

# Fish Food [SOLUTION]

The flavor text and the bottles of fish food below the fish tank indicate the fish can be divided into eight categories. Upon googling the fish names, one notices that the fish can be sorted into colors, with some fish being in multiple categories due to having multiple colors. As hinted by the flavor text, sprinkling each fish food (i.e. considering each fish color) one at a time, and shading those boxes that color, results in the following:

The colors taken one by one, in order of the fish food bottles at the bottom, spell CARNITAS.

For reference:

Purple - 8

- Gramma melacara
- Pseudochromis fridmani
- Mirolabrychthis tuka
- Pelagia noctiluca
- Insulamon palawanense
- Pseudochromis porphyreus
- Pseudanthias pascalus
- Strongylocentrotus purpuratus

Purple/Beige - 4

- *Xenoturbella profunda*
- *Acestrorhynchidae falcatus* (maybe)
- *Parupeneus multifasciatus* (maybe)
- *Astropecten articulatus* (maybe)
- *Solaster dawsoni* (maybe)

## Beige - 4

- *Mellita quinquiesperforata*
- *Holothuria albiventer*
- *Phenacogaster wayampi*
- *Luidia foliolata*

## Orange - 8

- *Taeniamia biguttata*
- *Hypsypops rubicunda*
- *Carassius auratus*
- *Hypsypops rubicundus*
- *Sebastes ruberrimus* (maybe)
- *Pseudanthias squamipinnis* (female)
- *Chrysaora colorata* (orange jelly)
- *Myripristis vittata* (maybe)
- *Paracheilinus carpenteri* (maybe)

## Orange/Green - 3

- *Salvelinus fontinalis*
- *Balistapus undulatus* (maybe)
- *Nembrotha kubaryana*

## Green - 9

- *Solenostomus halimeda*
- *Hemiancistrus subviridis*
- *Gymnothorax funebris*
- *Chromis viridis* (maybe)
- *Anthopleura xanthogrammica*
- *Elysia chlorotica*
- *Strongylocentrotus droebachiensis*
- *Gavialis gangeticus*
- *Crocodylus siamensis*

## Red - 12

- *Hoplostethus atlanticus*
- *Corniger spinosus*
- *Plectrypops retrospinis*
- *Myripristis jacobus*
- *Myripristis murdjan*
- *Fromia milleporella*
- *Eunephrops bairdii*
- *Atolla wyvillei*
- *Mesocentrotus franciscanus*
- *Octopus rubescens*
- *Halocynthia papillosa*

- *Heterocentrotus mammillatus*

## Yellow - 2

- *Lubricogobius exiguus*
- *Zebrasoma flavescens*

## Black - 6

- *Girella elevata*
- *Hypoplectrus nigricans*
- *Apteronotus albifrons*
- *Labeo chrysophekadion*
- *Idiacanthus atlanticus*
- *Holothuria leucospilota*

## Yellow/Blue - 5

- *Chrysiptera brownriggii*
- *Rhinomuraena quaesita*
- *Cephalopholis argus*
- *Scarus globiceps*
- *Chromis ternatensis*

## Yellow/Blue/Black - 2

- *Ostracion meleagris*
- *Paracanthurus hepatus*

## Other - 18 (A bunch of cactuses)

- *Carnegiea gigantea*
- *Opuntia ficus-indica*
- *Lophophora williamsii*
- *Echinopsis atacamensis*
- *Selenicereus grandiflorus*
- *Cylindropuntia leptocaulis*
- *Echinocactus grusonii*
- *Epiphyllum oxypetalum*
- *Gymnocalycium anisitsii*
- *Astrophytum myriostigma*
- *Echinopsis pachanoi*
- *Cereus jamacaru*
- *Rebutia minuscula*
- *Rhipsalis baccifera*
- *Cylindropuntia californica*
- *Pachocereus pringlei*
- *Lophophora diffusa*
- *Hylocereus undatus*
-
