

# Sandwich Bar [SOLUTION]

The word "bar" in the title, the use of "-" and "." in the flavor text, and the shape of sandwiches and soda cans on the tables indicates morse code. Translating each patron's meal into morse code, with sandwiches representing dashes and soda cans representing dots gives LOVE AND SANDWICHES.

Googling this phrase shows that is the tagline (and part of the official name) for Ike's Sandwiches, a famous California sandwich chain. At physical Ike's locations, sandwiches are numbered and given creative names. Each picture corresponds to a sandwich on the menu at Ike's and each sandwich has a number. Googling "Ike's menu" in google images gives many pictures with the sandwiches corresponding to their number on the menu. The patrons are, in order:
